Dear Steve,

My husband and I would like to thank Steve Stelzman and The Mortgage Company on making refinancing our house very fast and easy. We had refinanced 2 years ago with another company and it took about 8-9 months to be final. Little did we know the mortgage we were getting would end in 2 years with them having control. My husband was servicing the radio station WAEB when he heard an advertisement for Steve Stelzman the The Mortgage Company We decided to call and the results were great. We started out saving \$5000 dollars because of a penalty in our mortgage if we changed to soon. When we were able to begin the process of refinancing Steve came to our house (50 Miles away) and told us everything we needed to do which was hardly anything. We waited about 3 weeks, Steve called, we meet at his office and signed some papers. Then we were able to pay off our bills upgrade our car and now we feel very secure in our mortgage. If we had to do this again we would not hesitate to call Steve Stelzman and the Mortgage Company. Thank-you for making this an easy and pleasurable experience.

Sincerely,

PS. The day we signed the final papews our old Mortgage company sent us a letter stating our mortgage was going up \$200 dollars a month.
