

My husband and I rented for 11 years and thought that we could only afford to rent. We both don't have the best of credit and have been turned down in the past. When we meet our real estate agent, Bonnie Shive, for the first time when we were looking at a rental property, she recommended that we contact Steve Stelzman. I made my husband speak to Steve for the first time because I was embarrassed of being turned down.

Luckily Steve was able to get us approved for a home that fits our budget. He was also able to get us a great competitive interest rate. Once we were approved, it was easy from there. Steve took care of everything for us and gave us the best advice. Our real estate agent and Steve worked together and we didn't have to worry about anything.

Our experience with The Mortgage Company was a dream come true for our family! I would recommend Steve to anyone.
